IMPORTED TOBACCO :—

(2) Subject to the conditions before referred to, and as appears in this regulation, a drawback shall be paid upon every pound or fraction, not being less than a hundredth, of a pound of tobacco of Empire origin manufactured in the Colony, upon which the proper duties have been paid, when the tobacco is exported, by any licensed manufacturer whose name appears on the list hereinafter mentioned and who duly observes and performs the conditions set forth in paragraph (4) of this regulation, as merchandise, shipped by him as ships' stores, or exported by him by parcel post. Such drawback shall be calculated according to the proportion of Empire and non-Empire tobacco in any blend and be at a rate based upon the duty originally paid on the tobacco of Empire origin used in the manufacture : Such rate to be fixed by the Superintendent in each case.

(3) A list containing the names of those licensed manufacturers deemed by the Superintendent, in his absolute discretion, to be eligible for the benefit of the provisions of this regulation relating to tobacco of Empire origin by reason of his reliance that they respectively will duly and faithfully observe and perform the conditions set forth in paragraph (4) of this regulation, shall be prepared and kept by the Superintendent, who shall have power, in his absolute discretion, to expunge any name from such list.

(4) The conditions to be observed and performed by licensed manufacturers listed as aforesaid shall be :—

- (iv) The Empire leaf must be stored in a separate place, approved by the Superintendent, and apart from the rest of the stock of leaf.
- (v) The licensed manufacturer must take stock of his Empire leaf at intervals of not longer than fourteen days.
- (vi) The licensed manufacturer must mark, in English and Chinese, all goods manufactured wholly or partly of Empire leaf with the proportion of Empire leaf used in the blend.
- (vii) All tobacco of Empire origin in respect of which drawback is applied for must be duly accounted for by the licensed manufacturer.
- (viii) Every application for drawback under paragraph (2) of this regulation must be accompanied by a statement, signed by the licensed manufacturer, showing the actual amount of tobacco of Empire origin on which drawback is claimed.
- (ix) All reasonable facilities must be given by the licensed manufacturer, his managers, agents, clerks, servants and workmen, to the Superintendent and Revenue Officers to enable him and them to be informed as to the observance and performance of these conditions.

(b) (i) An ordinary survey is one which does not involve more than two visits by a Surveyor.

(ii) If more than two visits are necessary or in cases where owing to age or any other circumstances there are reasonable grounds for doubting the seaworthiness of the ship the survey is deemed to be of a special character.

(c) An emigration licence is only granted to a ship which holds a valid Hong Kong Foreign-going passenger certificate or its accepted equivalent. If the surveys for passenger certificate and emigration licence (or licences) are held simultaneously only one half of the above fee for an ordinary survey is to be charged for the latter in addition to the fee for passenger certificate.

(d) The appropriate fee will cover the survey of the ship and her equipments, including lights and sound signals; accommodation; distilling apparatus; stores; and lighting, ventilating and sanitary arrangements, but it will not cover the survey for a passenger certificate; measurement for tonnage; survey for loadline or inspection of crew spaces.

(b) When a ship, previously measured under Rule II, is remeasured under Rule I, the full fee in Scale A is to be charged without any deduction for measurement under Rule II.

(c) Scale C shows the fee for remeasurement in consequence of alterations on the upper deck, or in the engine room, or under Sections 77 (4), 78 (2), 79 (i), and 80 of the Merchant Shipping Act, 1894, or Section 54 of the Merchant Shipping Act, 1906. The maximum fee in respect of each item is \$75. The fee for measurement under Section 79 (1) (a) (i) includes the inspection of crew spaces if made at the same time as the measurement.

(d) The fee for measurement under Section 81, Merchant Shipping Act 1894, and in all other cases where, in consequence of alterations, remeasurement of the under deck tonnage is found necessary is that shown in Scale A.

(e) If a trawler or drifter, built and measured for the Admiralty, is transferred to private owners and is being registered under Part 1 of the Merchant Shipping Act, 1894 and alterations are found to have been made affecting the tonnage, the fee is to be charged in accordance with Scale A. If no alterations have been made, a fee of \$7.50 only is to be charged for the visit to the ship and the issue of the necessary papers to the Registrar of Shipping at the intended port of registry.

(f) If the owners of a foreign ship apply for the renewal of a certificate of British Tonnage, the principal dimensions are to be re-tried, and, if they are found to agree with the certificate, a fee of \$30 only is to be charged for the issue of the new certificate. If the dimensions do not practically agree with the certificate of tonnage, the ship must be re-measured throughout under Rule I or II, as the case may be, and the appropriate fee charged.

(g) The fee for a copy of the Certificate of British Tonnage is \$7.50.

(h) When application is made for the issue or amendment of a "Suez Canal" or "Panama Canal" Special Tonnage Certificate, a fee of two-fifths of the full tonnage fee is to be charged for each certificate whether the measurement is made at the same time as the measurement for British registry or not. This fee includes re-measurement of British tonnage (except underdeck) if made at the same time. Certified copies of Suez Canal or Panama Canal certificate will be issued on payment of \$7.50 for each copy.

(i) If a foreign ship, originally registered as a British ship, is subsequently brought forward for registry, a fee of \$30 only is to be charged if, on comparison, the principal dimensions are found to agree with the original tonnage measurements. If, however, they do not agree and the ship has to be measured throughout, the full fee is to be charged. If the underdeck tonnage is found to agree and other items differ, then, in addition to the \$30 fee for check measurement, further fees are to be charged for these items in accordance with the foregoing.

(k) The fee paid in accordance with Scale A covers any number of visits that the Surveyor may find it necessary to make before he is able to complete the measurement for tonnage and grant his certificate to enable a ship to be registered. It also covers the inspection of crew spaces and lights and sound signals, if the Surveyor is able to make these inspections at the same time as the measurement for tonnage but not otherwise. For any further visits necessary for the completion of inspection of crew spaces and lights and sound signals, additional fees are to be charged in accordance with Regulations 9 and 11 respectively.

(l) The fee for the inspection of minor alterations (*e.g.*, of rig, engines, etc.) is \$15.

SURVEY OF STEAMSHIPS :—

Item.	Fee.
<i>Examination of Plans of Ships, Machinery, etc. to be Constructed outside the Colony.</i>	
<p>The Government cannot allow any survey during construction to be made outside the Colony but, if desired, will undertake to examine and advise upon plans showing the structural arrangements and details of ships, marine boilers, machinery, boats, etc., which are to be constructed outside the Colony and intended to comply with British requirements.</p> <p>The fee for this service will be assessed in each case according to the work involved in the examination.</p>	

Surveys outside the Colony.

20. The foregoing fees are for surveys within the limits of the Colony and include the surveyor's expenses in connection with such surveys. When, on application being made, the Government decide to allow a survey to be made outside the Colony, in addition to the usual survey fee and the Surveyor's travelling expenses, a special fee of \$150 will be charged for every 24 hours or part of 24 hours during which the Surveyor is absent from the Colony. This special fee will include a subsistence allowance for the Surveyor which will be assessed and paid by the Government according to the circumstances of the case.

All fees and a deposit to cover the additional charges must be paid in advance by the applicants and an undertaking given for the payment of any balance of fees and expenses connected with the service.

Overtime Charges.

21.—(a) Whenever Surveyors are called upon to perform services out of official hours application should be made to the Government Marine Surveyor and an undertaking given to pay the overtime charges.

(b) Official hours are to be regarded as from 10 a.m. to 4 p.m. Saturdays 10 a.m. to 1 p.m. and overtime is charged according to the following scale:—

On week days :—

from 8 a.m. to 10 a.m. and 4 p.m. to 6 p.m.	...\$15 per hour.
from 6 a.m. to 8 a.m. and 6 p.m. to 8 p.m.	...\$30 per hour.
before 6 a.m. and after 8 p.m.\$60 per hour.
on Sundays and holidays...	...\$60 per hour.

(c) A service occupying less than an hour will be charged for as one hour according to the scale. For services exceeding one hour, a quarter fee will be charged for every quarter or part quarter of an hour, according to the scale, but for a service exceeding ten hours in any one case the charge will be limited to that for ten hours. These charges cover the services of all the Surveyors engaged in the survey, except if the services of an Engineer Surveyor in addition to those of an Emigration Officer are required before an emigrant ship can be cleared, the survey made by the Engineer Surveyor will be regarded as a separate one, and overtime charges will be made in respect of both officers.

(d) If, from unforeseen circumstances, the duty cannot be commenced at the hour stated on the form of application, or cannot be completed without interruption, the time during which the Surveyors are kept waiting is to be charged for a half the usual overtime rate subject to the limit of ten hours for the whole service.

(e) Time occupied in travelling between the shore and the ship is to be charged for at half the usual overtime rate.

(f) As the tests of illumination of ship's sides, searchlights for ship's lifeboats and visibility of navigation lights can only be made satisfactorily after dark, therefore, necessarily out of office hours, only one-half the usual overtime rate is to be charged for such tests.

The aggregate trade of the Colony, as expressed in terms of local values of imports and exports of merchandise, further improved during the calendar year 1938, but a comparative decline was noticed in the final quarter of 1938 which can be attributed to the extension of Japanese military operations to South China, and, in particular, to the Japanese occupation of Canton which port is the Colony's principal commercial neighbour. As a result of the Japanese occupation of Canton, the normal trade routes between Hong Kong and the South China regions served by Canton, were entirely disrupted. In each of the first three quarters of the year 1938 the total trade with South China averaged \$70.9 millions in each quarter, whereas in the final quarter of the year the total trade fell to \$32.6 millions. At the close of the year there were no signs of any early resumption of trade with Canton.

During the year 1938 imports from Japan totalled \$18.8 millions as compared with \$58.0 millions in 1937, representing a decrease of 67.6%.

The total visible trade of the Colony in 1938 increased by 4.2% in terms of local currency, as compared with 1937, and by 40.7% as compared with 1936. In terms of sterling the total visible trade increased by 4.5% in 1938 as compared with 1937, and by 38.1% as compared with 1936. Imports and exports of merchandise during 1938 amounted to a total value of \$1,130.1 millions (£69.9 millions), as compared with \$1,084.4 millions (£66.9 millions) in 1937.

Imports of merchandise totalled \$618.1 (£38.2) millions in 1938 as compared with \$617.1 (£38.1) millions in 1937 and \$452.4 (£28.5) millions in 1936; whilst exports totalled \$511.9 (£31.7) millions in 1938 as compared with \$467.3 (£28.8) millions in 1937 and \$350.9 (£22.1) millions in 1936.

In terms of local currency imports of merchandise in 1938 increased by 0.2% as compared with 1937, and by 36.6% as compared with 1936; whilst exports increased by 9.5% as compared with 1937, and by 45.9% as compared with 1936.

The Royal Observatory is situated on a hillock, 100 feet high, near the southern extremity of the Kowloon Peninsula. To the South is Hong Kong Island, consisting of a range of hills running east and west, with peaks from 1000 to 1800 feet high. The nearest point on this range is 2½ miles from the Observatory. Five miles to the eastward of the Observatory, where another small peninsula projects southward, is a range of hills from 700 to 1000 feet high. To the North a range of hills from 200 to 400 feet high stretches across the peninsula a mile from the Observatory. From 3 to 20 miles farther North the ground is hilly over the greater part of the peninsula with peaks from 2000 to 3000 feet high. To the westward of the Observatory the hills on Lantau Island, 10 miles distant, rise to 3000 feet.
